Safe Water Optimization Tool
www.safeh2o.app

Using the SWOT's Online Data Entry Platform

1 DOWNLOAD DATA INPUT TEMPLATE

LOGIN Using your assigned credentials to access full website

Access the template for download either via the Dashboard link or the Download tab

Dashboard	Download	Upload	Results	Archived

📊 DataInputTemplate.xlsx ·····················

IMPORTANT!
Requires Microsoft Office 2007 or a compatible Office suite to view

2 POPULATE TEMPLATE WITH FIELD DATA

Copy your water quality data into the template's rows and columns

When entering your data, please:

- ✅ DO NOT alter the template by removing or adding rows/columns
- ✅ Adhere to the template's instructions concerning format and units

📊 Save your data as an Excel file (.xls or .xlsx)
TIP: Include field site, date and time in file name

3 UPLOAD POPULATED TEMPLATE FOR ANALYSIS

Files can be uploaded via regular file navigation methods or by simply dragging and dropping them into the upload box on the Upload page

Dashboard	Download	Upload	Results	Archived

4 REVIEW YOUR RESULTS

Your site-specific chlorination target will be available within minutes after upload

Dashboard	Download	Upload	Results	Archived
